**PCN TOPIC:** Winmate improves the box bracket design for M-Series box PC and display.

**INTRODUCTION:** To provide better products, Winmate improves the box bracket design for M-Series box PC and display.

**DETAILS:** Winmate changes the design of a box bracket for M-Series box PC and display. The original bracket consists of two components: one screw and one material plate, while the new design consists of one part where hand-turn screw is attached to the bracket. The new bracket provides stronger attachment of the box module to the front display. Refer to a comparison table below for more details.

**Comparison Table:**

Current Design	NEW Design
<p data-bbox="292 752 692 831">Two-piece bracket (Separate hand-turn screw and plate)</p>  <p data-bbox="424 1111 553 1162"><i>Box Bracket Front View</i></p>  <p data-bbox="435 1431 542 1482"><i>Inner side of the box</i></p>	<p data-bbox="922 752 1394 831">One-piece bracket (Hand-turn screw is attached to the bracket)</p>  <p data-bbox="1090 1111 1219 1162"><i>Box Bracket Front View</i></p>  <p data-bbox="1106 1435 1212 1487"><i>Inner side of the box</i></p>
