

## Product Change Notification

**Document No.**                      **PCN-A-1090418**                      **Revision**                      **1.0**

**PCN TOPIC:**

Microsoft Windows 10 IoT Enterprise Naming change

**INTRODUCTION:**

As part of the alignment with Windows 10 and Office 365 ProPlus, Microsoft are adopting common terminology to make it as easy as possible to understand the servicing process. Going forward, these are the new terms they will be using:

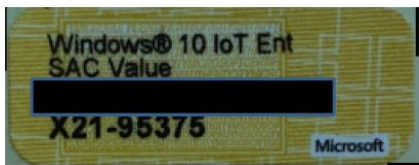

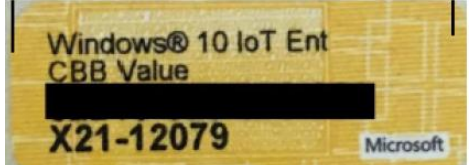

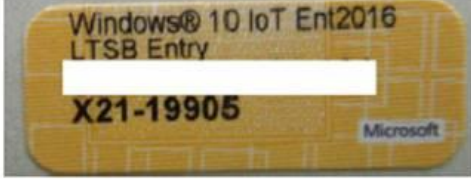

- Semi-Annual Channel – Microsoft will be referring to Current Branch (CB) as "Semi-Annual Channel (Targeted)", while Current Branch for Business (CBB) will simply be referred to as "Semi-Annual Channel".
- Long-Term Servicing Channel - The Long-Term Servicing Branch (LTSB) will be referred to as Long-Term Servicing Channel (LTSC).

This change will not impact Winmate products in any way besides possible naming changes in the Windows 10 system and changes to the Windows 10 IoT Enterprise labels.

**DETAILS:**

For the comparison table and impacted products, please refer to the below tables.

**Comparison Table:**

	Windows 10 IoT Enterprise SAC	Windows 10 IoT Enterprise CBB
Labels		
	Windows 10 IoT Enterprise 2019 LTSC	Windows 10 IoT Enterprise 2016 LTSB
		

**IMPACTED PRODUCT LIST:**

Winmate Windows based Tablets & Panel PC products.
