

Product Change Notification

Document No. PCN-A-1090324 Revision 1.0

PCN TOPIC: M133 Series Ultra-Rugged Tablet docking connector is becoming optional feature

INTRODUCTION:

Winmate updates the design of M133 Ultra-Rugged Tablet changing docking connector to an optional feature.

DETAILS:

In the standard configuration M133 Series Ultra- Rugged Tablet there is no longer docking connector on the bottom. The docking connector is used to connect the tablet computer to the desk docking. If a customer does not use a desk docking this change does not impact the M133 Ultra-Rugged Tablet functionality. However, notice that if a customer requests the desk docking; please contact Winmate's sales account manager to add the optional docking connector to the tablet.
