PCN TOPIC:

Winmate releases a new 10.4” Android Vehicle Mounted Computer FM10Q series to replace the FM10A series.

INTRODUCTION:

As a part of the product development strategy, Winmate releases the new 10.4” Android Vehicle Mounted Computer FM10Q series to replace the FM10A series. The FM10A series will be removed from the official website.

DETAILS:

As a part of the product development strategy, Winmate releases the new 10.4” Android Vehicle Mounted Computer FM10Q series to replace the FM10A series. The processing power of the FM10Q series comes from a Qualcomm® SDA660 Kryo 260 CPU, Octa-core, up to 2.2 GHz processor, and offers high performance. The computer showcases enterprise mobility in a VMC form factor thanks to its rich I/O ports, versatile wireless connectivity options, and the high flexibility brought by the design of the dock with a one-click top latch, which allows for easy removal of the device.

Winmate continues to support customers who purchased the FM10A series. For any inquiries, please contact the Winmate Sales Team for further assistance.
