

PCN – Product Change Notification

Document No

PCN-A-121204

Revision

1.0

PCN Topic: CF slot phase out

INTRODUCTION:

The change was based on the EOL of CF slot that affected to our standard products.

Details:

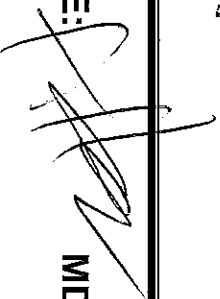

1. Our Panel PC and Box PC SBC (1Axx, 1330, 1370, 157x, A38x) will not be shipped with CF socket on the mainboard from now on due to the current CF socket is phased out.
2. We have removed CF card from the standard storage option for all of our Panel PCs and Box PCs.
3. We still can supply the Panel PCs and Box PCs by using converter board (IDE-to-CF or SATA-to-CF) by request, but there are some constraint on the housing; for example, you can only choose either 2.5" Hard Drive OR CF card.

Will be effective from 2012 / 12 / 04
