

# Product Change Notification

**Document No**                      **PCN-A-1070719**                      **Revision**                      **1.0**

**PCN TOPIC:** Winmate upgrades the default OS of M700DM8 to Android 7.0.

**INTRODUCTION:** Winmate updates the default operating system for M700DM8 from Android 5.1 to Android 7.0.

**DETAILS:** This is a notification for customers that Winmate has updated the default operating system of the 7-inch Android Tablet M700DM8 from Android 5.1 to Android 7.0 for a better Android experience for users.

Due to the changes stated above, the default Android OS listed on our website will be changed to Android 7.0. Additionally, the new Android 7.0 M700DM8 will come with a new housing color to differentiate from the original models containing Android 5.1. The new housing for M700DM8 will be fully black instead of light grey for the back cover. The hot-swappable battery will also be changed from light grey to black, thus giving the M700DM8 a uniform black design. This change to a fully black housing will be released as a running change.

In addition, the 4 front key icons will be redesigned, but their functions will remain the same. Please see the comparison table below for the visual differences between the Android 5.1 and 7.0 M700DM8. For additional information, please contact your Winmate Sales Representative.

**M700DM8 Housing Color change for Android 5.1 and Android 7.0 models:**

	Android 5.1	Android 7.0
<b>Housing</b>		
<b>4 Front Key Icons</b>
